Experience

Senior Product Designer | Klaviyo

Dec 2021 – Present

• Lead design and vision for Klaviyo's 350+ integrations, from complex, regulated workflows to long-term platform strategy with product, engineering, and partnerships teams

• Explore and prototype designs with Claude (Design & Code) and Cursor, testing ideas early and iterating quickly

• Designed new integrations and features, driving 8,500+ installs and adoption across 55K+ Shopify accounts

• Led the migration of 38 integration flows to a shared React component library in 6 months, partnering with 7 engineers to standardize the experience

• Mentored 2 designers to grow their skills and careers

UX & Digital Designer | Touch of Modern

Feb 2017 – Dec 2021

• Led web and mobile UX projects end to end, from prototyping and user testing through launch

• Built a design system that streamlined work across engineering, marketing, and merchandising

• Produced 500+ web assets, including emails, ads, and banners, as a one-person design team

Graphic Designer & Video Editor | PEER Center

Aug 2013 – Oct 2016

• Designed and updated marketing collateral, such as programs and posters, to maintain a cohesive brand identity

• Filmed and edited 20+ videos, from researcher and professor interviews to informational pieces, using Premiere Pro and After Effects
